Jérémie ROBERRINI-NEVEU

Experience

- **OXFAM SHOP**

Volunteer for 1 month in Oxfam Goodge street London UK in July 2016

As a volunteer for Oxfam, we were in charge of the shop retail space, warehouse, customer relation and till.

I learn about every day duty in a shop, including management duty, and really improve my English during this month in London and I discovered more about the intercultural environment in this city.

- **EDF TRADING LOGISTICS**

2 month operation assignment with EDF TL in Saint Denis (93) France in June & July 2015

EDF Trading Logistics is the supply organization arm for all EDF island entity. I was in charge to study the diversity of the information flow, between partners, customer and provider. In order to bring new idea and provide a draft for a new information system, which should me more easy, faster, able to share the information just in time to the right person, and allow co-working.

- **EDF Reunion Island**

2 month mission with EDF in Saint Denis (974) France in June & July 2014

EDF Reunion Island is a specific part of EDF because it's not linked to the continent. They have a full business unit and I had the chance to work for my first internship there. I was in charge of creating a new management tool for the supply department, in order to aggregate all of the contract amendment and all the production site into one Excel document so we could compare and predict production and cost for all of the year.

Education

- **UPEC : University of Paris East Creteil > IUT Sénart/Fontainebleau**

Bachelor Degree of International Trade in 2016/2017

This a Bachelor Graduation of International trade, we learn key competence to organize an international business such as supply chain management, International Marketing, corporate management and International Law. All of this combine with an approach intercultural differences, communication, and with strong focus on team working project.

- **Bordeaux University > Faculty of Economic, management and law**

Second year of the Bachelor graduation of Economy in 2015/2016

I chose to integrate the Bordeaux University for this second year of bachelor degree in order to pursue a more common education. We had courses about general Mathematics, and Mathematics apply to the Economy, Statistic. We focus on fundamental theory such as Economic organization of the world, Financial and Banking system and story of the Economy.

- **ISEG Business & Finance School > Major Finance**

Frist and second year of Bachelor graduation of Finance in 2014/2015

After high school I integrate ISEG Business & Finance School, which a French business school.

There we had courses about Corporate management, financial market, banking system, and stock market. We had a strong focus on developing our English level and develop our co-working skill and our availability to present in public.

Certification

- **ETF TOEIC - 925 points**

Official Listening and learning Test

- **C2i - 70.5%**

French IT skill certification, valid from 50%

And More

- **Trading - Stock Market**

I am a Non-professional Trader

- **Bull & Bear Trading Club**

I am the Founder and one of the Writers.

- **Office Docs - Project**
